

About Jikô An's Spring Program.....

It seems that in 2016 spring, we will have no program of activities in order to be able to continue with our recovery process and we will keep closed till time comes to reopen the center..... We ask all our friends to be a bit patient with us and respect the healing process we are involved in.

This stage of health cleansing brings us personally and for Jikô An, to a deep transformation of unknown reach and to reconsider the last 21 years we have been offering retreats and workshops....

Everything changes, all is completely new moment to moment and no one can foresee what will be this 2016 year.... The only clear point is that it is full of promises and surprises.....

**MAY THIS YEAR BE ALSO FOR YOU A GREAT REBIRTH AND BLOSSOMING!**

Hope to see you soon and renewed!
